- Custom Endowment reporting

Reporting Xpress Optimizes Reporting Efficiency for University of Wyoming Foundation's Complex Financial Structure

We couldn't be happier with the services provided by ReportingXpress. The reports they have been able to build with us and pull directly out of Blackbaud FENXT have revolutionized our reporting process. Each report is fully customized to meet our specific needs, eliminating countless hours of manual work previously spent consolidating data from Excel spreadsheets.

University of Wyoming Foundation

Challenge

University of Wyoming Foundation faced several hurdles in managing financial reporting:

- Complex accounting made native Blackbaud reporting impractical.
- Reports required time-consuming manual creation and distribution.
- Endowment packets involved manually generating financial summaries.

Solution

Reporting Xpress automated the generation and distribution of financial reports, streamlining processes for Foundation Account Balances, Project Ledgers, and Scholarship Summaries. For endowments, it provided customized, branded one-page financial statements ready to integrate into the university's packets.

Results

- Report creation time was reduced from hours to minutes
- Finance team resources were freed up for higher-value tasks.
- Endowment reporting became faster, easier, and professionally branded.
- Expert support optimized their complex accounting processes and Blackbaud integration.
